

Cardoor[®] Packaging Series

- ▶ Our exclusive packaging series especially designed for use with automotive consumer products.
 - ▶ Memorable packaging design for high brand recognition

Mauser Packaging Solutions Cardoor®

Not by coincidence, the design of this exclusive packaging series is reminiscent of the abstract design of car doors. The memorable design of our Cardoor® bottles and jerrycans make them the perfect packaging for high value automotive consumer products. Cardoor® packaging is designed to promote your products sales success. Our Cardoor® packaging series is not only about design, but also about functionality. Dimensions and various closure systems make the Cardoor® bottles and jerrycans an easy adaption to any modern filling line as well as they fit pallet and shelf standards. Light in weight, Cardoor® packaging is stable and with its large and recessed label panel guarantees optimum labeling possibilities.

Characteristic Features

Body: One piece extrusion blow molded from high density polyethylene (HDPE). Incorporated translucent view stripe in combination with easy readable volume scale. Large recessed labeling panels.

Standard color: Anthracite, black, silver or white.

Closure systems: Screwable 38mm standard and 50mm spout closures with tamper evidence ring. Black and red as standard closure colors.

Options: Bodies and closure systems in manifold colors. Customized labeling applied by Mauser Packaging Solutions. Spout version of 50mm closures and nozzle version with 38mm closure systems.

Specific Advantages

- ▶ Memorable packaging design with immediately visible connection between packaging and product use
- ▶ Suitable for a broad spectrum of automotive consumer products like lube oil, anti-freeze or brake fluid
- ▶ Light weight and robust packaging that offers high product protection
- ▶ Standard dimensions and openings to fit modern filling lines as well as pallet and shelf standards
- ▶ Large, symmetrical and recessed labeling panels for optimum labeling and label protection
- ▶ Available in manifold colors and with customized labeling
- ▶ Comes with standard opening geometries to fit various modern closure systems
